ABOUT ME

I am dedicated to supporting organizational growth through ongoing learning and development. By honing my skills, embracing challenges, and adapting to change, I aim to contribute to the organization's success. My growth mindset fosters continuous improvement and innovation within the organization.

HOBBY And SKILL

- Reading Something New
- Watching Film
- Playing Games
- Learning New Technology
- Coding
- Painting
- Web Development
- Mobile App Development
- Programming Skills

PROJECT

• Matrimonial Website

5th Semester Sep 2022

I have created a matrimonial website utilizing the MEAN stack, showcasing expertise in frontend development with Angular and backend development with Node.js, Express.js, and MongoDB. My responsibilities included designing adaptive interfaces, integrating user-focused functionalities, and establishing effective data handling mechanisms. Through collaborative efforts with diverse teams, I played a key role in deploying the website successfully and maintaining its operations. This experience highlights my adeptness in the MEAN stack and dedication to producing top-tier code.

• E-Commerce Website

6th Semester Apr 2023

I have designed an extensive online shopping platform utilizing the MERN stack. This encompassed constructing a user-friendly Client site with React to enhance browsing and shopping interactions. Furthermore, I established an effective Admin site to oversee products, orders, and user management. The incorporation of the Stripe payment gateway guaranteed secure and smooth transactions for users.
